

JARED REYES

Junior Web Developer

Freelance junior developer and past photographer with the determination and passion to bring my full-stack development and problem-solving skills to a new environment that boasts the security and camaraderie that freelance work lacks.

Work Experience

Junior Web Developer

Self-Employed – Tucson, AZ

March 2021 – Present

- Brought client ideas to life through the use of various animation libraries, svg designs, and more
- Developed several personal scripts to increase efficiency with the ability to scale and be rapidly customized to the needs of fellow developers
- Successfully refactored, transitioned, and organized countless blocks of deprecated code to maintain consistent updates in projects with the latest tech and design ideas
- Developed a password manager in python with file encryption and local storage to avoid privatized password management's lack of true security
- Designed, developed, and deployed various projects including a dashboard that is tailored to disorganized github users
- Successfully implemented OAuth2.0 into a dashboard while avoiding storing more credentials and data than necessary with the goal of improving the client's security and reducing risk
- Created, oversaw, and implemented various wireframes and mockups

Photographer

Self-Employed – Tucson, AZ

October 2018 – January 2022

- Planned, designed, and executed various successful photoshoots based on several unique themes
- Maintained a careful attention to detail and ensured precision, appearance, and theming in every piece
- Consistently and punctually presented with a positive attitude and determined mindset

Education

Associate in Pre-Engineering

Pima Community College

March 2019 - Present

Highschool Diploma

Empire High School, Tucson, AZ

July 2018
